The African hunting picture is of timely interest, being taken on the grounds that the ex-president will cover while on his trip in Africa. This picture is weirdly interesting, showing the boldness of the natives and some of their awesome tasks.

The comedy films include Why They Fell Out, and Wife's Ma. Madame Morelle made a pronounced hit with her charming song by Harrison Millard, entitled "Waiting." This brilliant song is splendidly sung by her, and each difficult passage is followed by spontaneous applianse, the audiby spontaneous applause, the audi-ence seeming in perfect harmony with her work. This excellent vehicle will serve to display her wonderful ability in the vocal line for the remainder of the week, while Mr. Delaney pleases all with his finely rendered popular li-ustrated song entitled, "If You Love Me as I Love You."

The Telltale Blotter, the feature pic-ture at the Roderick the first half of this week, is one that keeps those who witness it thrilled with excitement un til the very last. It is a story of a young man who, having falled to win the hand of the daughter of the banker aving accidentally found the o tion on a piece of paper left by the banker's favorite clerk. The blame, of course, rests on this clerk, but the daughter finds the blotter, and by daughter finds the blotter, and by comparing notes her suspicion rests on the real thief. Then by the aid of a hynotist the thief is brought to justice. It is one of the most exciling pictures ever produced. Another fine piece is Crazed by Jealousy, also a full reel of a thousand feet. COVENTRY WOMAN Will Inherit Half of Estate of George Grant of Bristol.

The Bristol correspondent of the Waterbury Republican writes: Judge Seth Barnes, who is the administrator of the estate of the late George Grant, has closed a deal whereby the house and lot occupied for many years by Mr. and Mrs. Grant has been sold for a consideration of \$2,400. By obtaining this sum of money the estate left by Mr. Grant will figure up over \$11,600. The fact that this man, well known. The fact that this man, well known about the town as a Grand Army veteran and an ordinary laborer throughout his life, saved such a sum of monout his life, saved such a sum of money has caused general surprise.

Mr. Grant worked for years for the
late Emerson Root and his successor
in the shop located on Main street,
where clock dials were manufactured.
He never received high wages. Some
years ago he retired from active work
and has since been living on his income. When an inventory of his estate was taken there was found to be

no children. The estate is to be divided between a sister, who lives in Canterbury, and the children of another sister. As far as is known to Bristol people, Mr. Grant never received any assistance with the exception of a small sum which the local G. A. R. post gave him within a short time of his death. It is thought this sum was asked for by Mr. Grant when he was not responsi-ble. Judge Barnes has stated that this

may be restored.

If you are one of the many people who object to wearing artificial teeth or artificial old-style crown and bridge work, you will be pleased after you investigate Dr. King's Restoration Method of naturally and painlessly replacing your lost teeth. The entire absence of any artificiality is the attractive feature of Dr. King's Method—there is no plate in the mouth and no points of contact observable as there are in all other methods. The connection between the restored teeth and your gums is exactly the same in appearance as between your natural teeth and your gums.

in other words, your restored teeth seem to grow out of your gums just as do your own natural teeth. The restored teeth are the most perfect and natural looking teeth that dental sclence has produced. Every tooth is absolutely lifelike. They are produced by Dr. King's Method, which makes the teeth translicent; that is, the light acts upon them as it acts upon the natural teeth. The ordinary artificial teeth are opaque; that is why, when the light strikes them in the open mouth, they look unnatural and false.

Keep in your mind this fact: The teeth used by Dr. King in his Restoration Method are not and cannot be used by any other dentist in the U.S. Don't have your teeth restored until you have seen Dr. King, and also keep in your mind that it is not necessary to pay exorbitant prices for this kind of work. Don't be induced by any line of talk to pay exorbiting prices for your dental work. Dr. King does the work at a consistently low price, and can show you endorsements from dozens of pleased patients.

POETRY.

And then Eve had to scold him for his lack of application,
And wish she'd never married—as women often do.
She told him how he must impress the rising generation,
And very often said he was the idlest man she knew.

The lion and the lamb were both invited to the feast;
The lion did not seem to be embarrassed in the least,
But, on the other hand, the lamb appeared quite ill at ease.
So close observers noticed he was wobby in the knees.
And when the table had been cleared the lion spoke of "Peace."
But somewhat thickly, for his pipes were clogged with bits of feece,—Philadsiphia Ledger.

Don Quixote had just tilted at the windmill, with the disastrous results already mentioned. "It's only the first battle." he said, gathering himself up, "but I guess it will hold me. I know when I've had enough." Alas, poor Don! It did not occur to him to conver; himself into a windmill and do all his fighting thenceforth in that character. Chicago Tribune.

Under existing laws there is no possibility of flour from the United States or from any other country entering France for consumption in the country, except in the event of a serious crop shortage. Only two years of insufficient home supplies have occurred in the last 20 years, once in 1891 and again in 1898.

To aid in the effort to stamp out plague by removing the origin, various rat exterminators of both local and foreign formulae are used in Japan, over 24,000 worth of arsenic having been imported from Great Britain and Germany in 1908, and a well known American rat poison having been introduced with pronounced success.

THE MATTER WITH ADAM.

A woman in Chicago claims that Adam
was a loafer.
She charges all the trouble to his always idle ways.
She seems to hold the apple as the
fruitage of a fiction,
And fails to see the serpent through
the intervening haze.

Of course, the primal patriarch has no defense to offer;
Just where he now is loltering the experts can't agree;
And so it seems injustice for this rash Chicago censor.
To use the ax of slander on her own nacestral tree.

During the years of 1804 and 1808 two large up-to-date newscaper plants were installed almost entirely with American machinery, one at Valparaiso and the other at Santiago. The falling off in imports since that time is due to the fact that European houses, and capecially German firms, are actively striving for this trade.
